Hi Eva,

MassDEP has two sets of documents for you to answer your request below on the Muddy River project: attached are electronic copies of e-mails related to the project; and coming to you on a disc through the U.S. Postal Service are two copies of Notices of Intent sent to the City of Boston and the Town of Brookline concerning the project. The Notices of Intent are very large documents with numerous attachments, maps, etc., and we were unable to send those electronically, so the disc is being mailed to you at the Somerville address that you listed below (see yellow highlight). Let me know if you have any questions on this information or need anything else from us.

Thank you,
Ed Coletta

For mailed responses, please address (see note):
